DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

A. **Claim 1**, page 10, line 55 is objected to because of the following informalities: “...coupled between each of the first series of nodes...” should change to “...coupled between each of the first output amplifiers of the first pre-amplification circuit...”. Appropriate correction is required.

B. **Claim 24**, page 14, line 6, is objected to because of the following informalities: “...between outputs of each amplifying means in the first pre-amplification means at a first series of nodes;” should change to “...between outputs of each amplifying means in the first pre-amplification means;”. Appropriate correction is required.

C. **Claim 24**, page 14, line 7, is objected to because of the following informalities: “...an adjustment between the first series of nodes...” should change to “...an adjustment between each of the first output amplifying means in the first pre-amplification means...”. Appropriate correction is required.

D. **Claim 10** is objected to under 37 CFR 1.75 as being a substantial duplicate of **claim 1**. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Art Unit: 2819

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
